

## HONORING ONE OF OUR OWN

For the last five years, Donald 'D' Daigle, Vice President of Pre-Construction Services has been diligently working toward becoming a Certified Value Specialist (CVS), a designation allowing one to facilitate and lead Value Engineering Studies world-wide. As of March 2017, we are proud to report Mr. Daigle is officially certified by the Board of SAVE International as a Certified Value Specialist (CVS).

His exceptional accomplishment was made even sweeter when he received news from the Board of SAVE International that his paper (each candidate must submit a scholarly paper as a prerequisite to the program) was selected as one of twelve to be presented at this year's Summit in Philadelphia. The topic and title of his paper was: "The Cost of Creativity – The Estimator's Role." Downey & Scott is extremely proud of Mr. Daigle's accomplishment, hard work and dedication. For Value Engineering Services, please contact us at (540) 347-5001 or [ddaigle@downtescott.com](mailto:ddaigle@downtescott.com)
